

# COBIT Essentials

## Control Objectives for Information and Related Technology

In order for ITSM to be effective, it is acknowledged that ITSM professionals need to broaden their exposure to the key IT governance frameworks and standards necessary to enable organisational risk to be managed and to enable organisations to:

- Achieve IT - Business Alignment
- Respond quickly to changing business needs
- Demonstrate effective corporate governance of IT
- Understand an organisation's appetite for risk and implement an appropriate management framework.

This three day course provides students with a Foundation level of understanding of CobiT, including the need for an IT Governance structure, the history of IT Governance, the CobiT framework, and gives guidance on applying CobiT in practice.

ProActive are official licencees of CobiT content for training purposes, licenced by ISACA. If successful in the multiple-choice exam, students come away from the course with a CobiT Foundation Certificate, issued by ISACA.

### COURSE FORMAT

ProActive's course format ensures that students get maximum benefit from the three days of training:

- Students benefit from peer group discussion.
- Course size is limited to 16 students.
- Theory is put into practice through the use of case study based examples.

### WHO SHOULD ATTEND?

- ITSM professionals who want to gain insight into the CobiT framework and its use within organisations;
- IT and business managers involved in the establishment and maintenance of a governance control framework; and
- IT Assurance staff (risk and audit professionals) responsible for verifying the effectiveness of IT governance controls.

### QUICK FACTS:

3 Day Course  
No pre-requisite  
60-minute, multiple choice exam

### CERTIFICATION & ASSESSMENT

Assessment takes place at the end of the course and is a 1-hour multiple choice examination. It leads to international CobiT Foundation Certification, issued by ISACA.

### PREREQUISITES

There are no prerequisites for this course, however practical IT Service Management experience and/or the ITIL Foundation Certificate would be an advantage.

### COURSE FEE

### ABOUT PROACTIVE

Information is subject to change. Prices correct at time of printing. Copyright July 2009

Take advantage of ProActive's long-standing history of providing quality ITIL training and consulting services! ProActive introduced ITIL into Australia and as such, is Australasia's longest serving ITIL training provider. We're also the largest ITIL training provider outside the UK accredited by the British Computer Society's Information Systems Examination Board (ISEB). ProActive have trained more than 25,000 students!

All our trainers hold the ITIL Expert Certificate in Version 3 and have vast practical experience on top of their ITIL and other related qualifications.

ProActive has been ISO9001 certified since 1996, and we have worked hard to embed quality into all aspects of the company's operation. Talk to us about our approach to quality, from training materials right through to pass marks and customer feedback!
